SPECIAL DISPATCH TO THE [illegible]

CHEYENNE Oct 8—A [illegible] from the [illegible] brings the following [illegible]:

BATTLE FIELD MILK RIVER, [illegible] October [illegible]

A courier will leave some [illegible] to-night with dispatches if possible. Indians still surround and [illegible] in an effective fire from the command [illegible] at a distance of [illegible] yards having a cross fire upon our position which position was chosen hastily on the first day of the fight. All our horses at [illegible] but two [illegible] have been killed. We sheltered them as best we could with wagons but to no purpose. Captain Dodge and [illegible] company D [illegible] cavalry came to our rescue yesterday morning at daybreak after a forced night's march of thirty five miles from Bear river. Cheer upon cheer rent the air from our trenches when it was ascertained who were coming. A lull in the firing enabled them to come in and shelter their horses as well as possible taking to the fortification quickly when the attack redoubled its fury. Had the heights been accessible Capt. Dodge would have charged them with his company while we covered him from our rifle pits, but this being impossible, the ascent being nearly perpendicular, all we could do during the remainder of the day was to keep a good lookout from the loop holes and return the fire when any Indian showed his head. This however was a very rare occurrence as the Indians have rifle pits and loop holes. Before dark every horse but three of Capt Dodge's command was shot down. A very fortunate thing for us has been that the Indians have left us unmolested at night with the exception of an occasional shot to make us scatter to our pits. We have been able at great risk to haul off our dead animals every night otherwise the stench would be intolerable. A sally is made every night for water a distance of 200 yards from our entrenchments. Night before last Private Ezer of Co. F was shot in the face while out with a party after water. The Indians were only a few yards away and were driven off by a volley from the guns and trenches. Capt. Dodge brought us the cheering news that our dispatches had reached Bear river safely and would undoubtedly reach Rawlings. We have been counting the hours which it will probably take for relief to reach us. We all agree that General Merritt from Fort Russell with the companies of the [illegible] cavalry there and all other available troops, will be sent to our rescue as they will be all needed to finish up the campaign.

The field of battle was admirably chosen for defense by the Indians, and had it not been for Maj Thornburgh's advance guard commanded by Lieut. Cherry discovering the ambuscade the entire command would have been annihilated. He saw a small party of Indians disappear over the hills half a mile in front and at once divided his party to reconnoiter and only discovered them when he had flanked their position by about 200 yards. Cherry rode back at full speed with two or three men who were with him and notified Maj Thornburgh who had already begun the descent into the deep ravine which was intended to engulf the command. The Indians were dismounted and lying down along the crest of a high steep ridge not a hundred yards from the point where the deadly assault would have commenced. The two companies were withdrawn a short distance dismounted and deployed in line of battle with orders to await the attack of the Indians. Lieut Cherry was here ordered by Thornburgh to take a detachment of fifteen picked men and make a reconnoisance, and to communicate if possible with the Indians as it was thought that they only desired to oppose his approach to their agency and would parley or have a big talk if they could be communicated with. Cherry moved out at a gallop with his men from the right flank and noticed a like movement of about 20 Indians from the left of the Indians' position. He approached within a couple of hundred yards of the Indians and took off his hat and waved it but the response was a shot fired at him wounding a man of his party and killing his horse. This was the first shot and was instantly followed by a volley from the Indians. The work had now begun in real earnest and seeing the advantage of the position he then held Cherry dismounted his detachment and deployed along the crest of the hill to prevent the Indians from flanking his position or to cover the retreat it found necessary to retire upon the wagon train which was then coming up slowly guarded by Lieutenant Paddock's company D 5th cavalry. Orders were sent to park the wagons and cover them with the company guarding them. The two companies in advance were Capt Payne's Co F 5th cavalry and Capt Lawson's Co E 3d cavalry which were dismounted and deployed as skirmishers Capt Payne on the left and Capt. Lawson on the right. From Cherry's position he could see that the Indians were trying to cut him off from the wagons and at once sent word to Major Thornburgh who then withdrew the line slowly keeping the Indians in check until opposite the point which his men held. When seeing that the Indians were concentrating to cut off his retreat Capt. Payne with Co F 5th cavalry was ordered to charge the hill which he did in gallant style his horse being shot under him and several of his men wounded. The Indians having been driven from this point the company was rallied on the wagon train. Major Thornburgh then gave orders to Cherry to hold his position and cover Capt Lawson's retreat who was ordered to fall back slowly with the led horses of his company. Cherry called for a volunteer squad of twelve men who responded promptly and fought with desperation. Their names will be given in a later dispatch as nearly every man was wounded before he reached camp and two men were killed. Cherry brought every wounded man with him. Captain Lawson, a brave old veteran displayed the greatest coolness and courage during the retreat sending up ammunition to Cherry's men when one they were nearly without it. Maj Thornburgh started back to the wagon train after giving his final orders to Capt. Payne to charge the hill and to Capt Lawson and Lieut. Cherry to cover the retreat. He must have been shot dead when barely half way there as his body was seen by one of Capt Lawson's men life extinct, and lying on his face. Capt Payne, then in command at once set about having the wounded horses shot for breastworks dismantling the wagons of boxes bundles of [illegible] grain corn and flour sacks which were quickly piled up for fortifications. Picks and shovels were used vigorously for digging entrenchments. In the meantime a galling fire was concentrated upon the command from all the surrounding bluffs which commanded the position. No an Indian could be seen but the incessant crack of their Sharps and Winchester rifles dealt fearful destruction among horses and men. The groans of the dying and the agonizing cries of the wounded told what fearful havoc was being made among the determined and desperate command. Every man fought to sell his life as dearly as possible. About this time a [illegible] great danger was approaching at frightfully rapid pace. The red devils at the beginning of the fight had set fire to the dry grass and sage brush to the windward of our position and it now came sweeping down towards us the flames leaping high into the air, and dense volumes of smoke rolling on to engulf us. It was a sight to make the stoutest heart quail and the fiends were waiting ready to give us a volley as soon as we were driven from our shelter. Now it reaches the flank and blankets blouses and empty sacks were freely used to extinguish the flames. Some of the wagons were set on fire which required all the force to [illegible]. No water can be obtained and the smoke is suffocating but the fire passes and we still hold our position. Meantime a constant fire is poured upon us. Capt. Payne being wounded for the second time and 1st Sergt Dolan of F Co killed instantly. McKinstry and McKee killed and many others wounded. Our greatest danger now is past [illegible] men have now mostly covered themselves but the poor horses and mules are constantly falling about us. Just about sundown a charge was attempted but repulsed the Indians trying to drive off some of our horses which had broken loose. The attack ceased at dark and soon every man was at work enlarging the trenches [illegible] hauling out the dead horses caring for the wounded and [illegible] the dead. At daylight the attack was [illegible] [illegible] keg of the sharpshooters has been kept up every day since and occasionally at night sending shot once to our pits in a scramble [illegible] is the [illegible] day of our siege but we are determined to hold out [illegible] it takes a month for succor to reach [illegible] are confident that Merritt, whose [illegible], is on the road to rescue us.

[illegible] that the liberty [illegible] best protected by constitutional [illegible] powers of government between state and federal officials and favor a strict [illegible] of that constitution [illegible] grant which shall prevent encroachment by either state or federal legislation on the rights granted to the other or [illegible] those which are reserved to the people [illegible] individually or collectively to the end that we may remain a free and sovereign people. Denounce the restriction and abridgement of the right of suffrage by the law [illegible] of Massachusetts as dangerous to liberty and subversive of the supremacy of justice and reason in affairs of state. Demand that the exercise of the right of suffrage should be encouraged and registry laws be properly framed [illegible] new tax levy laws. Oppose all legislation as to labor which tends to make labor dishonorable [illegible] give social or political preference to any class in society over others.

We desire to promote free thought free speech free education and free and equal rights of every man in protection in the enjoyment of his own religion. We believe in prosperity arising from industry and economy and denounce the grant of exclusive privileges to any body of men, extravagance of state administration and laying of burdens on one class of men for the benefit of another class from which others are exempt. We oppose future borrowing of money by states cities or towns so that an end may be put to a system which anticipates the labor of coming ages and appropriates the fruits of it in advance. Our thanks are due to the democrats in congress for their efforts to enforce economy in public expenses to abolish useless offices and to correct manifold abuses in public affairs least of which are the exclusion of intelligent citizens from the jury box and levying or maintaining an army of official hirelings around the polls for partisan purposes.

We believe in self government by the people and desire that the polls shall be free from interference of federal bayonets directed by intriguers of a federal partisan executive. We believe that the purity of the ballot box can be better preserved through state authority than by federal interference. We call on congress to aid the people and to rescue freedom of elections undeterred by republican clamors or presidential vetoes. The democratic party has always denied that any constitutional power existed in the federal government to make anything a legal tender in payment of debts except gold and silver. We affirm the obligations of public and private contracts and demand that public money ought to be kept in the treasury of the United States free from control or use by speculators or favorite bankers. We rejoice with the country at large in the renewed prosperity that attends agricultural and manufacturing pursuits but deprecate that republican policy which having destroyed our ship building placed the carrying trade of the products of our soil in the control of foreign flags and almost banished our flag from the seas and imperilled the pursuit of fisheries among our hardy population has rewarded Great Britain with spoils she never could have conquered and abandoned the Trident of the seas to her hands. We require that the candidates of this convention should represent democratic principles so as to conduct both national and state affairs, denounce the prohibition law as disregarding personal liberty and appeal for unity against republican disorganizing schemes that the nominees of this convention may be elected.

R. G. Abbott, P A Collins Geo W Gill and Reuben Noble were elected delegates at large to the national convention.

A Rich Strike of Gold on Ruby Creek W T—Tangible Results Already and Good Prospects Ahead

SEATTLE Oct 8.—N B Goodell formerly of the firm of E B Ebey & Co of this city arrived here to-day bringing with him 18 ounces of coarse drift gold from the Skagit mines. He states that there are now 30 men in the diggings on Ruby creek who recently struck it rich and are taking out from $5 to $12 per day to the man. The mines were discovered last fall by a prospector named Rowley who took $70 in drift gold from a pocket on Ruby creek in a few hours. The news reaching this city and other Sound ports a rush set in for the mines. Taking it for granted gold existed in paying quantities in the bed of the creek some 60 men have been at work all summer constructing ditches for the purpose of draining it. Bed rock however was found smooth and clear with no traces of gold upon its surface. Disgusted with the summer's work the men began to pack up and leave for home. On their way out about two weeks ago the remnant of the force some 30 in number camped on the [illegible] of a creek over [illegible] six miles below the scene of their summer's work and [illegible] the next morning traces of gold were discovered along the banks of the stream. From these indications they went to work and soon took out over an ounce of gold. Since then the party have taken out some [illegible] ounces although a considerable portion of the force have been engaged [illegible] the [illegible] packing in provisions a distance of 35 miles and not in actual digging. Flattering prospects since have been found at several other points along Ruby and [illegible] creeks and a big rush for the mines is likely to set in.

TO DAY'S RACES

Were still more largely attended than those of any preceding day. The contest between Trade Dollar Mollie Miller and Edith H was first on the programme and excited great interest the pools selling in greater amounts than on any other former race, Trade Dollar being favorite by about $10 to $5 on Mollie Miller and $3 on Edith H

The start for the first heat was a little disadvantageous to Mollie Miller with no difference as to the other two. Trade Dollar's rider held him up in the first quarter falling a little back of the other two who were alongside. On the second quarter a freer rein was given him and at the half which was made in 53 seconds the three horses were exactly abreast, it being impossible to tell which was ahead. From that out however the contest was between Trade Dollar and Mollie the latter leading to the third quarter and to the home stretch. On the post or within the distance pole Trade Dollar by a very handsome spurt came first abreast and then under the wire not by a half neck but by enough to win the heat. Time, 1 50¾.

The second heat was started with more difficulty but the three were finally got off well together. Trade Dollar took the lead however on the first quarter and kept it throughout the heat winning in 52 with apparent ease. The winner is owned by Isaacs & Crabb and is a chestnut mare by Norfolk dam by Lodi

The trotting race for three-year olds embraced only three starters the other eleven entries having failed to come to the scratch. Tempest on [illegible] entered by J Welch Katie Lynch [illegible] entered by Mr Lynch and Sweet Home, [illegible] entered by Mr Hucklebone. Tempest was a great favorite in the pools and won the first heat apparently with ease in 2 [illegible] Katie 2d having footed it squarely all the way round. The second heat was more interesting, Sweet Home breaking badly at intervals and barely saving her distance while the contest between Katie and Tempest was close. Katie doing excellent work on the last half and came under the wire in 2:48 winning by about a length. The third was an even start. Katie Lynch and Tempest kept well together until the half which was made in 1 2[illegible]. At the last quarter the mare trotted away from Tempest and came under the string in a jog in 2:48½ Sweet Home barely saving her distance. The fourth heat was another even start. On the first quarter Tempest and Sweet Home behaved badly. Katie trotted the mile squarely and beautifully without a break making the [illegible] in 2[illegible] and winning the heat and race in [illegible]8¾. Sweet Home second Tempest a bad third

[illegible] after prayer by the chaplain Mr Dudley moved that a committee [illegible] appointed to draft rules for the [illegible] the [illegible] adopted and Messrs [illegible] Dunbar and Clune were appointed

Mr [illegible] moved that the clerk be [illegible] inform the house that the council [illegible] organized. Adopted

Mr [illegible] moved that a full set of officers [illegible] council be appointed. Adopted [illegible] Dudley placed in nomination [illegible] assistant clerk [illegible] Samuel Green of King county [illegible] elected. Mr [illegible] placed in [illegible] for engrossing clerk Mrs [illegible] unanimously elected. Mr [illegible] nomination for doorkeeper, M[illegible] W[illegible] Ben[illegible], who was thereupon elected

Mr D[illegible] offered joint resolution No 1 [illegible] of two be appointed by the council [illegible] the committee appointed by the [illegible] wait upon and inform the governor [illegible] both houses were now organized and ready to receive any communication he might be pleased to make. Passed. And Mr Clune and Mr Dunbar were appointed as such committee on the part of the council. Adjourned until to-morrow at 2 P M

The house after prayer by the chaplain passed joint resolution No 1 appointing a joint committee of five on mileage and joint resolution No [illegible] appointing a joint committee of five on joint rules

After concurring in the joint resolution of the council relative to appointing committee to wait upon the governor the speaker appointed Messrs Farnsworth and Storms as such committee. Adjourned until to-morrow morning at 10 o'clock

The governor's message which will be read to-morrow at 10 o'clock is looked forward to with great interest and is a most able and comprehensive document. The governor makes a most favorable resume of the progress in wealth and prosperity of the territory drawing attention to our exemption from the financial distress which has until lately existed in other portions of the union to the marked absence of the species tramp and to the steady and constant demand for all kinds of manual labor as corroboration. He strongly discountenances crowding bills in at the close of the session and intimates that many of our present defective and faulty laws are attributable solely to this cause. While our finances are found in a most healthy condition the system of giving credit to the different counties for their amount of delinquent territorial tax is so manifestly unjust that its abolishment is recommended. The act of congress cutting down the pay of members the number of officers and fixing the number of members in each house at 12 and 24 respectively is also called to their attention with the suggestion that actual population should alone influence the apportionment to be made under its provisions

Both houses finding that it would be impossible for them to conduct their business satisfactorily with the limited number of officers allowed have elected the usual quota recompensing those not allowed out of the territorial funds

The weather has cleared up most delightfully and the lack of work at the capital enabled many of the members to attend a spirited race—one mile dash—between two horses of good local reputation which took place at the fair grounds this afternoon

This evening a grand ball will be given and a pleasant time is anticipated

Nebraska Republicans and Grant.

OMAHA Oct 1—The republican state convention met to night, M L Harwood presiding. General Amasa Cobb was nominated for supreme judge and John L. Carson and John W Gannett for regents. The following resolution among others, was adopted

Resolved That we, as republicans of the state of Nebraska, welcome back to the shores of America the champion of our union, protector of our nation and hero of the great rebellion General Ulysses S Grant.

The resolution was received with tumultuous applause. Pending its adoption speeches were made by Judge J M Thurston General Roberts General Cowen and General Smith in which Grant was named as the standard bearer for 1880 as the savior of the nation and its future preserver. Old time republican sentiments were the order of the day and the enthusiasm was unbounded. The mention of a bloody shirt as the banner for the boys in blue received great cheering. The convention was the most harmonious and stalwart ever held and Nebraska is pledged to republicanism forever

Irrigating with Hot Water

[Sutro (Nev) Independent

When the hot water from the Comstock mines began to flow from the Sutro tunnel it was believed that trees and flowers if irrigated with it would die, the water being so hot even a mile below the tunnel's mouth as to be uncomfortable to bathe in. But the result has proven the belief a fallacy. The hot water instead of injuring the plants appears to have given them more nourishment than cold water has in past years

HERCULES
PATENTED MAY 21 1878

In this boot the counter is covered by a piece of leather extending from under the sole to some three inches above the upper edge of the counter or in other words, the counter is between the leather of the boot and the protector and is not exposed either on the outside or the inside of the boot consequently the heel does not touch it at all thus one of the greatest objections to boots—the trouble of getting the heel over the counter or stiffening—is removed. This is an object of great importance to the consumer both in economy and comfort. On this point we need only appeal to the thousands who wear boots.

HERCULES.

Another advantage gained by this arrangement is that the same piece of leather that covers and protects the counter also extends beyond the side seams covering those seams thereby greatly increasing their strength. Again in the old style boot the leg is liable to sag or fall around the ankle but in

HERCULES

The Hercules Boot this is rendered less liable by the counter protector as it doubles the leather at the point where the sagging usually takes place

HERCULES

All boots—men's, boys and youths—may be manufactured with this improvement, though it is most desirable in heavy boots where great strength is required

THURSDAY MORNING, OCT 9, 1879.

PARTY AND THE GOVERNMENT.

Our system virtually makes the party in power the government. In an examination of several recent publications on the constitutional and political history of the United States, a writer in the *North American Review* justly takes the liberty to question whether the constitution of the United States is the complete and flawless piece of work which its worshippers have supposed. Reverence of the constitution for its perfection has bordered upon superstition; yet the instrument undeniably is so defective, and in some important respects so inconsistent with itself, as to make irreconcilable interpretations plausible and defensible. The very letter of the constitution has permitted the contentions of ninety years, as to the scope of national and state authority, and allowed the discussion all the wide latitude over which it has ranged. And even yet, notwithstanding the great war and its results, a political party, numbering half the American people, are on a platform which virtually holds that the constitution does not create a national government, but only a league of states. Facts like these may well raise doubts as to the perfections of an instrument which allows plausible opportunity for such looseness and variance of interpretation.

But it is only truth to say that advocacy of national authority and of the rights of states depends much on the interests to be subserved and the party to be benefited by one interpretation or the other. It is undoubtedly true that the views and tendencies of the political parties of the present time are inherited mainly from divisions which existed when the constitution was formed, and which became more clearly defined soon after it went into operation;—that is to say, the party now known as democratic is descended from the state supremacy school, and the party known as republican from the national school. Yet each, when it has been in possession of the general government, has been a strong supporter of national authority, and each when out of power in the national government has protested against centralization of power in it and has appealed to the reserved rights of the states. Yet only the democratic party has carried the state supremacy theory to extremes. Still, it is true to no small extent that it has been the representative government at the national capital and not the constitution, which has decided what interpretation should be followed;—that is to say, what doctrine should prevail has depended on preponderance of interests affecting for the time control of affairs at Washington. Democrats now denounce every exercise of national authority by their opponents; but when they have themselves controlled the government they have hesitated at no stretch of national authority which promised them political advantage. On the other hand, though republicans have not asserted state supremacy, they have on occasion very strongly asserted state rights. A notable example of their action in this direction was when they declared only a short time ago that the electoral vote of certain states must be counted as returned, without going back to question the methods employed in pursuance of state law.

Still, the national principle is firmly fixed in the hearts of a great majority of the people, however it may appear to the contrary at times, through the shifting necessities of party action. In fact, though the letter of the constitution is fixed, we are all the time building a constitution somewhat on the English plan of legislation, growth and precedent. As the policy of the government has ever depended on the party in power, we have long had a parliamentary government in fact, much as if there were no fixed constitutional limitations. It has been so under one party as much as another. But, as the writer before us says: "More and more has it appeared a necessity of national life, regardless of disputed doctrines of constitutional interpretation, that national authority should predominate, and that the whole should not only contain but control the parts, just so far as the interests of the whole are involved." Should the democratic party in the next presidential election get full control of the government no one needs to entertain a doubt that it will soon assert national authority to the utmost, in the attempt to make its power impregnable.

WASHINGTON TERRITORY.

Yesterday the message of the governor of Washington territory was delivered to the legislature, in session at Olympia. It contains much interesting and important matter relating to the affairs of the territory. The general prosperity of the people is a subject of gratulation, as well as the rapid growth of the territory in wealth and population. The territory is entirely free from debt, and warrants upon its treasury are usually paid on presentation. During two years past interest to the amount of $1293.08 only has been paid upon warrants, a sum much smaller than during any equal preceding period. But it appears that the revenue system of the territory needs thorough revision. Many counties are largely delinquent, and there appears to be an effort among the counties to shirk taxes due the territory, something after the fashion prevalent among the counties of Oregon of shirking taxes payable to the state. In Washington payment is dodged by a different method from that employed in Oregon, but the result is the same. Counties in the territory return say sixty per cent of their taxes as delinquent, and as the territorial tax is paid only on what is returned as collected the treasury loses six-tenths of the amount justly due. A remedy is recommended which will require each county to pay into the treasury of the territory the full amount which may be levied, and it is stated that if this is done taxation for territorial purposes can at once be reduced to three mills on the dollar. Value of property in the territory on the first day of September, 1879, was $21,021,832, against $16,855,988 in 1877. The gain in two years has been $4,165,843. This is an extremely favorable showing for the growth and prosperity of the territory. It is recommended that a board of equalization be created to adjust inequalities in the assessed value of property in the different counties, and it is suggested that if the expense attending the labors of this board be deemed an obstacle, this may in a large measure be obviated by devolving the duties of equalization upon certain territorial officers. The new penitentiary system is pronounced an improvement upon the old one and more economical. In pursuance of a law enacted two years ago a contract has been made with a responsible person for custody and maintenance of all territorial convicts for the period of six years, and it is working so well that no further legislation is deemed necessary. The subject of state government is touched upon, and the desire of the people of Washington for admission is supported by the statement that the population and wealth of the territory are permanent; that ability to support a state government depends more on the amount of taxable property than on the number of inhabitants, and that five states have, in the past, been admitted with a population less, respectively, than Washington now contains.

For ten months ended June 30, the gross earnings of the Northern Pacific railroad were $1,167,261 82, and operating expenses were $711,453 31. The gain in gross earnings for ten months was $230,000 over the same period last year.

MEXICO'S GOLD AND SILVER.

Of the great number, extent and richness of the mines of Mexico there is no question. Many authorities are, indeed, of opinion that when these mines come to be worked by the improved machinery and appliances of the present time, their yield will again surpass that of any other mines of the world. The Boston *Economist* shows from trustworthy authorities that the yield of Mexico's mines of gold and silver from 1521 to 1876 reached the sum of [illegible]. This is a vastly larger sum than has yet been produced by all the mines of the United States. It is certain, moreover, that Mexico's capacities for producing bullion are yet so far from being exhausted that modern engineering and machinery could not only restore the former product, but make them yield more than ever. Some idea of the prolific character of the mines in that country may be gained by the following figures, denoting the yield in a few cases since the conquest of the country by the Spaniards:

Biscenula silver mines	$16,331,000
Santa Ana silver mines	21,347,210
Valenciana silver mines	31,813,486
Rio Grande district	650,000,000
Sierra Madre district	800,000,000
Veta Madre district	335,937,736

The Panilian silver mine produced $20 000 a day for five years, when operations were stopped by a flood of water. After being opened again it produced in ten years $40,000,000. It was again idle till 1871, when work was once more resumed and an annual yield realized of $13,400,000, making a grand total from this mine of over $100,000,000. There are many others besides those above named whose yield has at times been large, but they are worked irregularly, owing in part to the want of proper machinery and in part to frequent political disturbances which interrupt operations. It should be observed that much the greater part of the above vast sum of gold and silver from the mines of Mexico was extracted by primitive modes and clumsy appliances, of which no better idea can be obtained than by comparing their results with those produced by modern improvements. It does not seem too much to expect that the mines of Mexico will again become the foremost in the world.

Work is being pushed vigorously on the tunnel under the Hudson river, designed to connect New York and Jersey City. The tunnel is to cost ten million dollars. It is to be 12,000 feet, or two and one-fourth miles long. At greatest depth it will be sixty feet under water. The track will be laid with heavy steel rails, and a depot will be established in New York, probably at Washington square. At the Jersey end work is in progress, and a beginning will soon be made on the New York side. Work will be continued night and day by relays of men, who are expected to advance five feet a day. The tunnel will be walled with the best hard brick, laid in cement; it will be twenty-six feet wide and twenty-four feet high, will be painted white and lighted with gas. The run will be made through it in six minutes. A New York journal says construction of this tunnel is an item in the advance in business facilities of the metropolis of the western world which may well excite local admiration even in a great city where there is so much to minister to a local pride.

MARK.
OVERALLS
Are sold by leading dealers in this city and on this coast, because—
"THEY CONTAIN THE BEST MATERIAL,
ARE SEWN WITH LINEN THREAD,
And ARE THE MOST PERFECT FITTING."

In putting on or taking off Overalls, the strain on the crotch often causes them to rip; and to remedy this we are making a continuous strip of cloth, extending the entire length of both sides of the Overall from the crotch and secured thereto at every point. *Under these circumstances, we claim that our Overalls will stand greater strain than any other make in the market.*

Observe the Trade Mark and take no other.

THURSDAY MORNING, OCT. 9, 1879

CITY.

THE NAVAL COURT.—Yesterday [illegible] the naval court called by James La Faw, British vice consul, to investigate the charges preferred against Capt. James Swan of the British bark *Anne Main*, by J. D. [illegible], first mate of the vessel, convened. The court met at the office of Mr. Ludlaw. It is composed of the following gentlemen: Lieut. [illegible] of H. M. S. *Rocket*, [illegible], Paymaster Collins of the same vessel, Capt. Bingham of the merchantman [illegible] and Capt. Penny of the [illegible]. The court was in session several hours, during which time a number of witnesses were examined. The entire crew, numbering [illegible], will testify in the case. The statements made by Capt. Swan and those of the crew are of a very contradictory character. Those of the crew who have been examined testify unanimously to the tyrannical and brutal conduct of the captain. Capt. Swan has preferred charges against First Officer Furloch, of disobedience to orders, conspiring with the crew to mutiny, assault, and interfering with the men in the discharge of their duties. The court will probably be in session several days.

"HOOK'S" TRUCKS ON A JAM.—A collision occurred last evening at the [illegible] of the fire alarm which came near proving a very serious one. As Vigilance Hook and Ladder Company's truck came down First street at a fearful rate of speed, the wheels took a "sheer" in crossing the street railway track, and the end swerving around with great force against one of the awning posts in front of the Congress Hall, the post was knocked down in an instant and about 20 feet of the awning came down with a loud crash. The sidewalk was crowded at the time, but very fortunately no one was caught under the awning. One of the men who had hold of the tongue of the truck was hurled some distance by the collision, and received some bruises. The truck escaped with comparatively little damage. Looking at all the circumstances of the accident, it seems wonderful that some person or persons were not killed or crippled.

CONCERT THIS EVENING.—Mrs. Dawson, the well known and popular music teacher, will be the recipient of a complimentary concert—vocal and instrumental—at Turn Halle, this (Thursday) evening, by her pupils, Profs. [illegible], Vinton, Rees and a host of volunteer talent. A splendid programme will be rendered. Full particulars will be found in another column. The lady is one of the most accomplished musical instructors in the state and fairly deserves a jammed house. All who attend a rich treat is promised. Tickets can be procured at the music store of W. Prentice & Co., J. A. Child's drug store and at the door. Admission 50 cents.

MATCH GAME OF BILLIARDS AT SALEM.—[illegible] Davis of this city and Fred Chartres of Salem played a match game of billiards at the Chemeketa Hotel Tuesday evening for [illegible], Davis to make 300 points to his opponent's 2[illegible]. Pools sold slightly in favor of Chartres, who won the match, making his 300, while Davis had 265. The table was a [illegible] concern and not fit for the contest game, the cloth being full of [illegible] and holes, and the cushions in bad [illegible]. Much interest is manifested in [illegible] between Davis and Riley for the [illegible] one to-night, both contestants [illegible] an equal number of backers.

FINE SAMPLES OF GRAIN.—At the Merchants' Exchange can be seen samples of Oregon and California wheat of choice quality. It is very desirable that parties having choice samples of Oregon wheat should send them to the Exchange, as it presents a fine opportunity to display Oregon's products, the Exchange being visited by parties interested stopping in the city. General [illegible] party will doubtless visit the Exchange, and all interested should see that Oregon's grain is well represented. Parties having ample samples to spare will do well to send them to J. R. Farish, manager Merchants' Exchange.

HANDSOME PRESENT.—The *Astorian* says: Mr. J. Marshall, deputy county clerk of Clatsop county, was made the recipient of a handsome cane on Tuesday, by the members of Fountain Hose company, of Oregon. The cane is made of a piece of a [illegible] old hand fire engine that was [illegible] while Mr. Marshall was chief of [illegible] department eight years ago there. [illegible] was first put into use a great [illegible] and Mr. Marshall was torch [illegible]. Then it was sent to San Francisco, [illegible] service, and finally sold to Oregon [illegible] after many years of usefulness, [illegible] broken up."

RELEASED FROM CUSTODY.—A. Johnson, [illegible] man who was arrested a few days ago on a warrant telegraphed Chief Besser [illegible], California, charging him with [illegible], has been released. Johnson turned over to Col. Dudley Evans, of the Express [illegible], all the money he had in his possession and became responsible for the [illegible] something over $100. In the entire [illegible] Johnson has evinced a disposition [illegible] fairly and honestly. He tells a very [illegible] story and has conducted himself [illegible] in such a manner as to dispel any [illegible] that he had drawn the money with [illegible] intent.

[illegible] OUT.—Just as the bell tapped last evening Mr. J. L. Barnard and his wife were [illegible] down Morrison street in a buggy. [illegible] opposite Willamette's house just [illegible] engine was emerging, and the horse [illegible] frightened at the noise and whirled [illegible] around before Mr. Barnard could [illegible]. The vehicle was capsized in a [illegible] and both occupants thrown out. [illegible] say neither were injured beyond a [illegible] scratches.

SEIZED.—Yesterday the steamer *State of* [illegible] was seized by the U. S. marshal for [illegible] violation of sections 4472 and 4499 [illegible] sections prohibit the carrying of coal [illegible] certain stringent restrictions. It is alleged that the steamer has violated the [illegible] this regard. Bonds for the release of [illegible] steamer were fixed at $1000, and were immediately furnished. Col. John McCraken and William Gillick becoming sureties for [illegible] amount.

GRAND DRAMATIC PRODUCTION.—Manager [illegible] telegraphs from Salem last evening [illegible]: "Please announce next week [illegible] there will be a grand production at New Market Theater of the military drama, of [illegible], in honor of Gen. Grant." On this occasion the theater will be handsomely and appropriately decorated in honor of the distinguished visitor.

HELD TO ANSWER.—Chas. Turk has been brought before Justice McClane of Salem, charged with an assault on Mr. Friedman, brother of the auctioneer, with a deadly weapon. After hearing the case he was bound over to appear before the grand jury in the sum of $200. Not being able to furnish bonds, he was committed to jail.

PARALYZED.—The Chinawoman Hui Qai who was shot in the back several weeks ago by Wang Fook, is paralyzed, and the physician in attendance states that she can not survive. Should the woman die, the [illegible] Wang Fook will stand a good chance [illegible] the strength of hemp.

COMMITTEE MEETING.—The Grant reception committee will meet to-day in the council chamber at 1:30 P. M., and the general committee will assemble thirty minutes later in the same room, to arrange preliminaries for the grand welcome. A full attendance of [illegible] committees is desired.

A COSTLY MISHAP.—Yesterday morning a [illegible] Chinaman kicked over and broke the transit belonging to City Surveyor Chapman. The instrument was valued at about $1[illegible], and is damaged to the extent of $[illegible]. The Mongolian was indifferent and manifested little concern.

BURNING FLUE.—About 6:30 last evening an alarm from box 1[illegible] brought out the firemen and engines. The alarm was occasioned by the smokestack of the sash and door factory, situated on Second between B and C, [illegible] out.

IN TOWN.—Mr. W. C. Myer, of Ashland who has been to Victoria and Seattle with Percheron stock is at B. B. Acker's stables. He has with him a pair of fine bay mares and a Shetland pony, a special favorite.

BOUND OVER.—Su Fan Chee, accused of attempting to kill a compatriot, had a preliminary hearing before Justice Wiley yesterday afternoon, and was placed under $100 [illegible].

[illegible] SEASON.—We are indebted to [illegible] nice bowl of clam chowder, [illegible] first class. It is the first of [illegible] soup.

GRANT RECEPTION.

MEETING OF COMMITTEE OF ARRANGEMENT.

The committee has met every day this week for transaction of business, and yesterday had a meeting in the Mortgage Savings Bank, Mr. Reid's office, when the following arrangements were completed:

The committee waited on Gen. Howard at Vancouver and arranged that two companies of infantry and the artillery with their cannon, the general commanding and his staff, should come over to Portland on Monday or Tuesday morning, whichever day is fixed for the reception, and there meet the Grant reception committee, who will, along with Gen. Howard and staff go on board the committee's steamer, the *City of Salem*, and proceed to Vancouver. On its arrival there the *St. Paul* will start for Portland with Gen. Grant, Gen. Howard and staff and the officers at Vancouver, while the reception committee's steamer, the *City of Salem*, will return to Portland along with the *St. Paul*, and reach our city, McCraken's wharf, at 2 o'clock sharp. On passing Weidler's sawmill the city artillery corps will give a salute of twenty-one guns, and on its arrival at the wharf the U. S. artillery will give a grand salute of twenty-one guns. Thereafter the procession will start off under the charge of Gen. McCraken as grand marshal and his aids, along Front street and back on First street, and up to Fourth, and back to the Clarendon hotel.

In the evening the reception will take place at the Mechanics' pavilion. There will be a triumphal arch erected by the committee at Morrison and First streets.

A regatta will take place on the second day, composed of the Salem Rowing Club, the Willamette and the Portland Clubs. The committee here has purchased two silver cups to be competed for at the regatta, one called the "Grant Cup" and the other the "Grant Commemoration Cup."

The same day there will be trotting races, open to all comers, for two $50 purses, to start from the White House to Portland, at both of which General Grant and party will be present.

At the regatta the steamer *City of Salem* will, with General Grant and the committee on board, accompany the race boats to the White House and witness the regatta.

The details of the procession and those who are to take part in it we have not yet learned, except that the school children will take part in the procession.

All the carriages in the city have been ordered by the committee; the Clarendon Hotel has been fitted up for Gen. Grant and party; badges have been ordered for and to be worn by the various committees, and other minor arrangements have been made.

The committee have arranged for the Handel and Haydn Society, under Prof. Kinross, giving the "Messiah" at the New Market Theater the night after Grant's arrival in Portland, at which the general and friends will be present.

One of the committees of arrangements, H. C. Leonard, Esq., is now in San Francisco, arranging with Capt. Erskine, of the *St. Paul*, the details necessary before the vessel's arrival at Portland; will telegraph the committee of arrangements the moment the *St. Paul* leaves San Francisco. The cannot go faster than ten knots an hour, so that even although she leaves San Francisco at 6 o'clock Thursday she cannot reach the Columbia bar sooner than late on Sunday night, or rather it is expected early on Monday morning, and as she will not stop at Astoria at all but proceed up the river, the committee have thought it best that she go straight to Vancouver, and when her arrival over the bar is telegraphed the necessary final arrangements will be made for the *St. Paul* reaching Portland not sooner than 2 o'clock next day. Our citizens will thus be enabled to know for certain when the procession will commence and all business places will be closed by one o'clock on the day of Grant's arrival. The committee on arrangements have thus been very busy, and all indications point to the fact that the reception will be a grand success.

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD EDGE HILL WINES.

Mr. Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. *California Physicians* have pronounced their preference of it to all other. Doctor Cox government revenue officer at Cincinnati, Ohio, says in his report, that after ten years' of close investigation he can safely say that very few, if any, pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of litharge and other dangerous drugs in all their French wines, that there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary, to prove the superiority of the best class of California wines and brandy. Orders from responsible parties, addressed to Wm. Scheffler, or Geo. H. Beach, St. Helena, Napa county, Cal., will receive prompt attention.

A LIBERAL OFFER.

No "dictionaries," no "chromos," no "solid silver spoons" but the invaluable boon of good health, is the matchless premium offered and guaranteed to all ladies that suffer with those aggravating diseases and weaknesses peculiar to their sex if Dr. Pierce's Favorite Prescription be used as directed. Ladies, submit yourselves no longer to the use of the knife and caustic. The Favorite Prescription has revolutionized that branch of medical practice, and wrought your complete emancipation from the protracted pain and suffering of the past.

KILMORE, Ind., March 20, 1878.

DR. R. V. PIERCE—Dear Sir: Your Favorite Prescription has restored me to perfect health.

Yours truly, GRACE CHOATE.

422 EUTAW ST., BALTIMORE, Md., June 10, 1878.

DR. R. V. PIERCE, Buffalo, N. Y.—Dear Sir: My wife was a hopeless invalid for nearly 20 years. Your Favorite Prescription has cured her.

Thankfully yours, R. T. McCAY.

LIFE OR DEATH.

It is a question of life or death. Nature admonishes us by the loss of appetite, by depression of spirits, by a bitter taste in the mouth, that we are sick. Take Pfunder's Oregon Blood Purifier, as by its mild but beneficial action on the Liver and Kidneys it powerfully assists nature in her efforts to re-establish a healthy condition of the whole system.

A fine assortment of clocks, optical goods, solid silver and silver plated ware at reasonable rates can be found at Henrichsen & Greenberg's, 149 First street.

A PROMISING "BOOM" FROM THE EAST

NEW YORK, Sept. 27, 1879.

———— ————: Have about finished up here and expect to be with you a week or so after you receive this. Feist & Franks' failure has had a bad effect on the booming market, and has made CASH twice as big as it was. I have used all you sent me and want more. I cleared a Philadelphia manufacturer out of two lines of Spreads yesterday, and have forwarded you a good White Jaquard Quilt to sell for 50c., and a Large Colored Spread, heavy and fringed, to sell for $1—worth $1.65 by the case and sold every day for that money. You will receive some excellent Rubber Ulsters for ladies, such as we sold last season for $4 50, which you can sell for $3, and a lot with large double capes equally cheap. I cleared the French Kid Gloves this morning. Portland has never seen such goods at the price; the "Jouvin Coupe" is a Glove which you can warrant in every particular.

The BLACK SILKS I wrote you of are in the Custom-house, but I expect to get them through and on the road Monday. The 75c. TRIMMING SILK will take the town by storm. I came to terms with the Fairmount Mill ([illegible]) and they have shipped the Check Dress Goods, to sell at 12 yards for $1. They are actually worth 20 cts. per yard and the patterns are quite new. [illegible] case remit $408 in sight exchange to the Saybrook Spinning Co. [illegible]. It is the last payment on the Linen Purchase. I shall mail you a batch of invoices this evening. Very truly, &c., B. S. COHEN.

P. S.—I picked up a lot of RUBBER UMBRELLAS at auction Thursday. They are retailing here at $2 50; elegant and durable goods. We will be able to sell them for $1 50. I offered that for a duplicate, but couldn't get them.

In connection with the above we will state that some of the goods have arrived. They are too numerous to be enumerated, but even a casual inspection will convince any one that the place to trade is the

EDUCATIONAL STATISTICS

From the report of the commissioner of education just published the following official figures are gleaned as to the amount expended by certain states in one year. In this table twenty-eight of thirty-eight states are reported. The liberality of the northern states even those of the second rank in this particular is in striking contrast with that of the southern states. For example Kentucky with just about the population of Iowa expends less than one fourth as much for public schools

THE NORTHWEST.

Oregon.

The U S marshal has sent warrants to Harney for quite a number of our citizens to come to Portland, to answer to the charges of letting stock graze on or near the Malheur reservation. They are assessed all the way from $300 to $5000 damages.

The body of an unknown man was found on the beach near Point Adams light on Monday last. The body had evidently been in the water for three or four months as the head, shoulders and arms, were gone. The deceased had on when found two pair of pants, one pair black broadcloth and one pair of striped cassimere outside. Also a pair of No. 5 gum boots. Nothing was found about his person.

Canyon City News Fred Miller who farms a few miles below here on the river went to stop a Chinaman Ah Toy, from digging a ditch through his field and the Chinaman said he was only fishing. Fred took his net from him and threw it away, whereupon the almond-eyed celestial drew his knife and stabbed Miller once in the ear in the neck and in the back, inflicting three very bad wounds. The Chinaman was arrested and is now in jail awaiting a session of the grand jury.

Washington Territory

A son of Mr. H. Bateman of Eastern Washington, urged by the advice of a swindler named Fredin, left home last week taking several hundred dollars from a trunk in his father's house. Fredin then cheated him out of most of the money and is now in jail at Dayton.

In the legislature of California the San Francisco delegation will stand: Senate—Republicans, 4; Workingmen, 6. Assembly—Republicans, 9; Workingmen, 11.

Read and Learn for Yourself.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with BOSCHEE'S GERMAN SYRUP. Although but a few years introduced into this country, its sale now reaches in every town and village in the United States. Its wonderful success in curing consumption, severe Coughs, Pneumonia, Asthma and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, *free of charge* by druggists. No such a test of merit was ever given before to any other preparation. Could you ask more? Go to your druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially indorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands and it is now known and used in all the civilized countries of the world. For sale by all dealers Hodge, Davis & Co., Portland wholesale agents.
